VOL. XCVI.---NO. 247.

ALEXANDRIA. VA., THURSDAY EVENING, OCTOBER 17, 1895.

PRICE 2 CTS.

Headache. This distressing malady is caused

by a run-down state of the health, and is often a forerunner of other and more dangerous diseases.

Brown's Iron Bitters

cures headache by removing the cause of it; and this is the way it does it.

It purifies and enriches the blood, quickens the action of the kidneys, the liver and the bowels, and gently and pleasantly stimulates the digestive organs, and in fact thoroughly renovates and tones up the whole system-and you have no more headache. And besides it is pleasant to take, and will not stain the teeth nor cause constipation.

Is this not better than dosing yourself with disagreeable and dangerous drugs, which at the best can do no lasting good?

Don't be deceived by imitations. See the crossed red lines on the wrapper. Our book, "How to Live a Hundred Years," tells all about it; should be read by everybody; free for 2c. stamp. BALTIMORE, MD. BROWN CHEMICAL CO.,

[Entered at the Postoffice Alexandria, Virgin-ia, as second-class matter.]

INTEMPERANCE AND THE CI-GARETTE HABIT.

The annual report of Superintendent Blackford, of the western State asylum at Staunton, deals with the affairs of the hospital in an able way. It appears that in this, the sixty-eighth, year of the hospital's existence, the admissions during the year were 115 males and 92 females; a total of 207, up to October 1st. These, together with those previously admitted, make up 737 inmates on October 1st. The recoveries noted are 122 (48 males and 74 females), with a total of 12 improved. The deaths were 28 males and 23 females, while the number of patients discharged was 189—males, 91, and 98 females. Whole number treated during the year, 926.

The superintendent reiterates his

views expressed in a former report as to the matter of separate asylums for "dangerous lunatics" "harmless imbe-ciles," and "idiots," as suggested by ex-Governor McKinney, arguing that such separation is impracticable and The great necessity existing in Virginia for a training school for feeble-minded children is spoken of, and the establishment of such schools

is strongly suggested.

Under the title, "Intemperance and the Cigarette Habit," Dr. Blackford "Alcoholic insanity is now a wellrecognized form of mental alienation Alcohol has a peculiar affinity for the brain and nervous system. No man can drink alcohol habitually to excess without suffering mental impairment it matters not how strongly he may be the moral sense blunted; he loses that the moral sense blunted; he loses that keenness of perception and power of sustained effort so necessary to success in life; and, if persisted in, the degenerative process goes on until it ends in moral and mental imbecility. While it is quite true that the direct evil effects of the alcohol habit can be overestimated, it is just as certain that it is easy to underestimate the indirect evils that

are the outcome of intemperance. "To the same extent the same could be said of the pernicious 'cigarette-smoking habit,' now so prevalent among and undermining the moral, physical and mental health of the youth of our country, during the period of youth and development, when the brain is tender and plastic, and easily affect ETS, MOULDINGS, MANTELS, NEWELS, BALUSTERS, FLOORING, RUSTIC SID. ING. DRESSED BOARDS, &C. SQUARE through and around the nerve centres. TURNED WORK A SPECIALTY. Special attention given to Church, Store, Office and country promptly filled. Estimates cheerfully furnished.

Estimates cheerfully furnished. surely be the first to give way, and, of course, the first to suffer, with its strain on the nervous system. The youth at college who burns the mid-uight oil is to be commended for his industry, but too often he burns out his brains at the same time. With the ac-companying cigarette the process of waste and injury to the nervous system may be greater than the repair, and mental bankruptcy is the result.'

The fierce struggle for social advancement and hasty acquirement of riches, and overstudy in schools and colleges are noted by Dr. Blackford as prominent factors in producing mental troubles. It is disclosed that there are in this institution 100 epileptics, a class generally regarded as the bete noir of insane hospitals, on account of homicidal impulses. It is noted as a melancholy fact that this class is increasing in Virginia. There are 120, 000 in the United States. Dr. Black-ford suggests that for the present the better plan for this State is to erect separate buildings of a cheap character

for this class of afflicted persons. The Superintendent from this report evidently is not a believer in woman's rights, which means men's wrongs, for he says: "The cornerstone upon which all true and national life is built is the home. There man gives her undisputed sway in that realm; she has no competition; man ungrudgingly recognizes her superiority; but when she descends from that lofty position to compete with men, and demands her rights, then she must abandon her prerights, then she must abandon her pre-rogative of privilege willingly accorded to her, and must be content with her rights." James Weir, jr., is quoted from September American Naturalist in his article on "Effects of Female Sutfrage on Prosterity," as saying that "a majority of female suffragists are demajority of female suffragists are de-generates; that they are viragints, or FINEST OYSTERS women who have masculine traits, and that moral and physical degeneration of the race will inevitably follow the suc-cess of the movement; that while the effects of degeneration are slow in making their appearance, yet they are ex-

ceedingly certain." The permanent improvements of the past fiscal year were the building of a new laundry and a new steam plant, costing \$16,397, the former to be opened in a few days. The total per capita cost per patient for every expense and charge is \$137 this year, as opposed to \$145 the year before.

Chamberlain's Fain Baim to achieves, gymnasts, bicyclists, foot ball players and the profession in general for bruises, sprains and dislocation; also for bruises. Sprains and dislocation; also for bruises. soreness and stiffness of the muscles. When applied before the parts become swollen it will effect a cure in one half the time usually required.
